between Japan and China are becoming increasingly strained and Japan is facing security threats from China. In addition, the visit is very important to organize the East Turkistan issue in Japan.

PROTESTS AGAINST THE ELISHKOU MASSACRE IN ISTANBUL

PROTESTS WERE HELD IN FRONT OF THE CHINESE CONSULATE IN ISTANBUL, AGAINST THE MASSACRE COMMITTED BY THE CHINESE ARMY ON THE FIRST DAY OF EID AL-FITR, ON JULY 28, 2014, IN ELISHKOU IN THE YARKENT DISTRICT OF KASHGAR, EAST TURKISTAN.

The Elishko massacre occurred on the first day of Eid al-Fitr, July 28, 2014, and 3,000 Uyghurs were martyred before they could celebrate the holiday. On Eid al-Fitr, the Chinese army committed a massacre in the town of Elishko in the Yarkent district of Old Kashgar in East Turkistan.

It is noteworthy that at least 3,000 people were killed in the area, which was bombed by the Chinese army with heavy weapons, and 3 settlements were completely removed from the map.

The International Union of East Turkistan Organizations organized protests and a press conference in front of the Chinese Consulate in Istanbul, located in Sarıyer, on the occasion of the ninth anniversary of the Elishko massacre, and in protest against the visit of the Chinese Foreign Minister to Turkey.

More Than 3 Thousand Turkistanis Were Brutally Killed

“We have gathered here today to protest the visit of Chinese Foreign Minister Wang Yi to Turkey, ignoring the persecution and suffering of the people of East Turkistan in Remembering the Elishkou Massacre Wang Yi, who has been Chinese Foreign Minister since 2013, was one of the government officials who turned a blind eye to what happened on July 28, 2014, when the bloody Elishkou massacre took place. On the first day of Eid al-Fitr, more than 3,000 Uyghurs were brutally murdered. In the massacre carried out by the Chinese occupation forces by shelling the city of Elishkou with heavy weapons in the Yarkent region of Kashgar. The sudden bombing operations launched by the Chinese security forces had terrified the people of East Turkistan. Thousands of Chinese armored soldiers stormed

the homes of the Uyghurs on the first day of Eid al-Fitr using heavy weapons and blood gas, which led to the killing of thousands of innocent Muslim Uyghurs.”

They Were Accused Of Terrorism Because Of Their Beliefs And Identities

Odon stated that the massacre was a product of China’s new age policies, of which Wang Yi was also a part: “After the new anti-terrorism policy adopted by Xi Jinping in 2014, the people of East Turkistan who have been trying to preserve their religious and national identity on their land, for centuries, they have been accused of terrorism because of their beliefs and traditions. These policies have been championed in the international arena by the current Chinese Foreign Minister Wang Yi. Despite concrete evidence of genocide and tens of

thousands of witnesses, Wang Yi spread lies that concentration camps were educational centers, that The people of East Turkistan are happy, that there was no violence by the state.” He also emphasized that the Elishkou massacre was neither the first nor the last massacre committed by China in East Turkistan.

The Chinese minister should make a statement about East Turkistan

Odon continued his speech, reminding that China is trying to destroy the language, religion, history and identity of East Turkistan, saying:

“It is the responsibility of all of us and every person to preserve our identity, to inform the international community of the persecution suffered by the people of East Turkistan and to seek justice.

We ask Allah to have mercy on our martyrs in the Elishko massacre and grant their families patience. The suffering of our martyrs and their honorable memories will always live in our hearts and strengthen our struggle for justice. Wang Yi, as the Chinese Foreign Minister, should be held accountable for the systematic repression, genocidal practices and concrete evidence that constitute the allegations of crimes against humanity implemented by the CCP government in East Turkistan and explain the current situation of Turkistanis living in East Turkistan. The Chinese authorities should also remember their obligations to the international community to protect fundamental freedoms and guarantee human rights.

WE DEMAND FROM THE REPUBLIC OF TURKEY AND THE TURKISH MINISTRY OF FOREIGN AFFAIRS TO SHARE RESPONSIBILITY FOR HUMAN RIGHTS, WHICH ARE AS FOLLOWS:

- Demanding China to stop the genocide that is still going on in East Turkistan.

Demanding the release of the Uyghurs detained in concentration camps in East Turkistan and their reunification with their families in Turkey.

- Building more institutions, consulates and diplomatic bodies for the Republic of Turkey in East Turkistan and submitting proposals for the liberation of East Turkistan.

- The opening of consulates of the Republic of Turkey in the cities of Kashgar

and Urumqi in order to protect and inform the situation of Turks who do business and travel to East Turkistan.

Uyghur Abubakar Rahim, who managed to inform the world about the Elishko massacre committed by the Chinese Communist authorities on July 28, 2014 in East Turkistan, was arrested in Chinese prisons in Yarkent, East Turkistan on August 6, 2014.

VICTIMS OF THE ELISHKU MASSACRE

On the first day of Eid al-Fitr, July 28, 2014, more than 3 thousand Uyghurs were brutally killed in the massacre committed by the Chinese occupation forces shelling Elikshou with heavy weapons in the city of Yarkent belonging to Kashgar, East Turkistan.

The sudden bombings by the Chinese security forces had terrified the people of East Turkistan. Thousands of Chinese armored soldiers also stormed Uyghur homes on the first day of Eid al-Fitr using

heavy weapons and tear gas resulting in the arrest and martyrdom of thousands of innocent Muslim Uyghurs.

The Chinese Communist authorities are committing massacres and against the people of East Turkistan in order to suppress them and implement the crime of genocide, forcing them to follow their orders without any objection.

All peaceful protests in East Turkistan turn into tragic and brutal bloody massacres!!!

THE “SINICIZATION” OF THE GRAND MOSQUE OF SHADIAN HAS STARTED

07/22/2023, By MA GUANGYAOA

Extraordinary security measures protect the demolition of the iconic dome of a mosque known as “the Mecca of the Hui,” for which Muslims already shed their blood in 1975.

As predicted by “Bitter Winter,” the “Sinicization” plan of mosques in Yunnan province has now attacked its most ambitious target, the Grand Mosque of Shadian.

An iron wall has been erected against the mosque. Its characteristic dome will be demolished and the minarets will be rebuilt in “Chinese” style. A picture of the scene shows slogans hailing “democracy,” “freedom and equality,” “justice and the rule of law,” and “core socialist values” advocated by the Chinese Communist

Party (CCP) posted on the tin walls erected around the Shadian mosque in view of the demolition work.

A model of the new construction has been posted on Weibo. “Sinicization,” as usual, means removing the most characteristic Islamic features and symbols, accused of being “Arabic” and “non-Chinese.”

Attacking the Grand Mosque of Shadian has a special historical significance. It is the largest and most important Hui mosque, built in the year 1684. It has been called “the Mecca of the Hui.”

It was destroyed during the Cultural Revolution, leading to widespread protests by Hui Muslims, followed by their bloody repression ordered personally by Chairman Mao. In the “Shadian Incident” of 1975, 1,600 Hui Muslims were killed, including 300 children.

In the post-Cultural-Revolution climate, the mosque was rebuilt in 1981. It was further expanded in 2005. Extraordinary measures have been taken to prevent riots in occasion of its “Sinicization,” which has now started.

The incident confirms that the iconoclastic fury of the CCP knows no obstacles, and would even destroy one of the very icons of Islam in China.

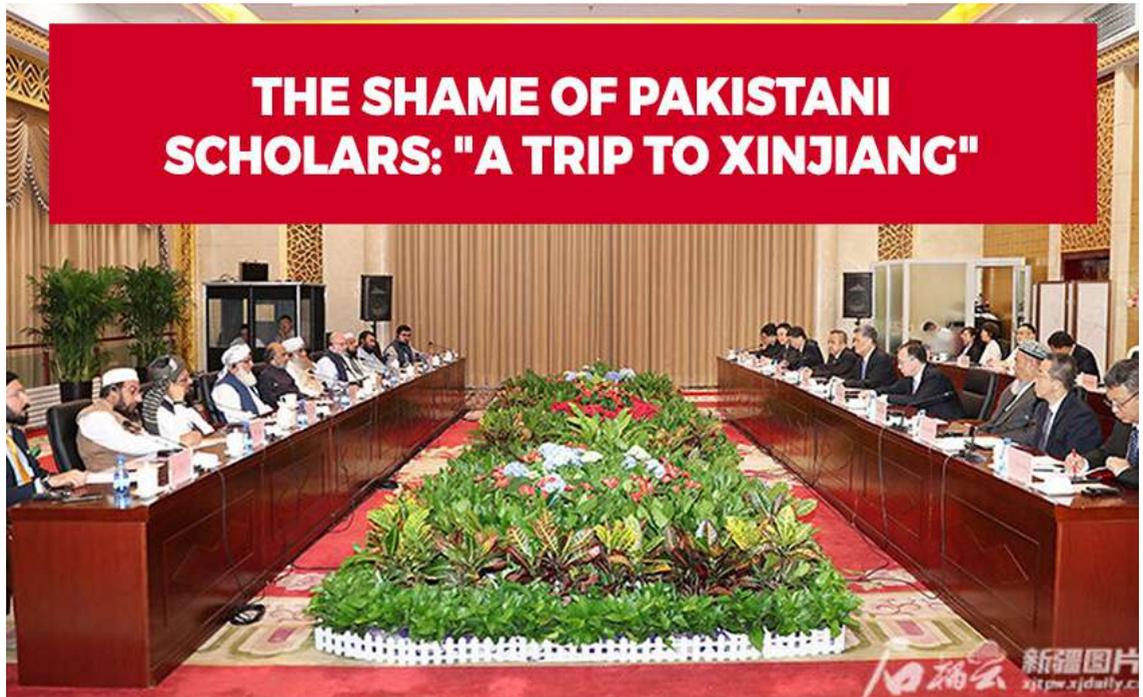

Communist slogans posted on the walls erected around the mosque.

A delegation consisting of a group of religious scholars and representatives of non-governmental organizations from Pakistan began their visit to East Turkistan under the title “trip to Xinjiang (East Turkistan)”. The International Union of East Turkistan organizations strongly condemned the shameful trip.

The delegation, consisting of a group of clerics and representatives of non-governmental organizations from Pakistan, at the invitation of China, arrived in East Turkistan this week and began its alleged visit.

The delegation includes president of the Pakistan Ideological Council Qibla Sadiq Ayaz, president of the International Religious Affairs Research Council of

Pakistan Muhammad Israr Al-Madani, Director of the Dar Al-Quran School of Pakistan Muhammad Tayeb, vice-president of the Association of Islamic scholars of Pakistan Islam Fazil Ali Hagan, foreign affairs representative of the Islamic Development Association Qazi, Sultan Ahmed Ali, chairman of the sohonzada Center for Islamic Research, and others.

According to Chinese media, the Pakistani delegation arrived in the ancient city of Kashgar on July 17, they visited the famous Eid Kah Mosque (currently used for tourism purposes).

During a fictional visit conducted at the Eidkah mosque, the Communist Imam Muhammad Juma spoke about the stereotypes that he memorized by order of China, made false statements that members of the East Turkistan people

can perform religious worship without any restrictions, and that the Chinese government respects the doctrine of ethnic groups in religious freedom; trying to hide the systematic genocide of China in East Turkistan.

On the second day of the visit, the Pakistani delegation, visiting the “White Mosque” and the so-called “Xinjiang Islamic Institute” in Urumqi, met with such Chinese religious figures (impostors) as the Communist Imam Abdul Raqib tumurnyaz.

THE GOAL IS TO CREATE THE IMAGE OF “HAPPY UYGHURS”

According to reports in the Chinese media, a meeting to welcome the Pakistani delegation was held in Urumqi on July 18. The secretary of the so-called party committee of the “Xinjiang people’s government” of East Turkistan, Ma Xingrui, Arken tonyaz and other people were present at the meeting. Secretary Ma Xingrui, who delivered the opening speech, said that the whole of China, especially the so-called “Xinjiang” (East Turkistan) people live in peace and harmony, as he tried to cover up the genocide in East Turkistan by claiming that happy societies with all freedoms exist here and that Western countries, especially America, are trying to control China by making up lies about the so-called Xinjiang (East Turkistan).

On the other hand, Chinese media separately met with Pakistani delegates and asked them to evaluate their

imaginary trip to East Turkistan, talk about what they witnessed about the protection of national culture and religious freedom. The Pakistani delegates mostly said that “China and Pakistan are good neighbors and important partners of the China-Pakistan Economic Corridor initiative, One Belt and One Road Initiative, and they want to strengthen cooperation in various fields after the so-called’ trip to Xinjiang (East Turkistan)’.

THE REACTION OF UYGHURS IN THE DIASPORA

The International Union of East Turkistan organizations stated that it strongly condemns the shameful so-called “trip to Xinjiang” of the delegation of Pakistani Muslim scholars and China’s support for the policy of genocide in East Turkistan in a written press release:

“On July 18, a delegation consisting of Pakistani scholars and academics paid a visit to Chinese-occupied East Turkistan. According to the Tien Shan news agency, this delegation attended a seminar on “continuing the sinicization of Islam” in Urumqi, where Chinese officials and so-called religious figures declared that the sinicization of Islam and its integration into a socialist society is important for the long-term stability of the region and the regional modernization strategy of the CPC.

During the meeting with the secretary of the so-called “Xinjiang Uyghur Autonomous Region” Ma Xingrui and regional president Arkin tonyaz, the

visiting delegate announced that Pakistan is a good neighbor, friend and brother country of China, Pakistan is next to China, different ethnic groups in the region enjoy full religious freedom and live in harmony with the ethnic and religious policies of China. The fact is that China has been implementing genocidal assimilation policies such as concentration camps, brainwashing, Muslim bans, abortion, family separation, and state repression since the Chinese occupation in 1949. It is a well-known fact that millions of people were arrested, while millions more died.

China has been using the “sinicization of Islam policy” since 2012 to restrict Islamic practices, demolish mosques, burn the Koran, arrest religious scholars, academics and writers, legitimize its policies against Islam and cover up genocide. In addition, China is constantly trying to deceive the

international community by inviting those delegates from Muslim countries with which it has good diplomatic relations to visit, showing religious events that are usually prohibited, but are held only for these delegations.

As the International Union of East Turkistan organizations, we condemn the Pakistani delegation that failed to fulfill its obligations to expose the ongoing genocide against the Muslim people of East Turkistan and defend the truth, condemn the delegation’s statements in favor of the embodiment of Chinese Islam and justify China’s anti-Islamic policies. We also call on Muslim scholars, Islamic organizations, associations, Islamic countries and politicians to stand side by side with the Muslim people of East Turkistan and take action to stop the ongoing genocide,”he said.

THE JOURNALISTS THAT CHINA HAS TAKEN TO EAST TURKISTAN HAVE NEVER SEEN THE OPPRESSION AND PERSECUTION(!)

Authorities begin to sell Detained since 2013, Uyghurs, Kazakhs living in East Turkistan under the CCP administration, especially the crimes against humanity committed against other Turkish peoples, as well as ethnic genocide murders continue to be on the agenda with great interest and increasing reaction in the Turkish public and the international community.

The crimes against humanity and genocidal murders committed by China in East Turkistan are committed by MHP Chairman Mr. Dr. Devlet Bahçeli's extremely important and valuable statement Decrying Palestinian Leader Abbas's statement supporting China's Uyghur genocide, successive statements on the East Turkistan issue came from our political Parties. After the speeches made by AK Party, MHP, GP and MPs of the GOOD Party and Future party in Parliament and the harsh statements made by the Occupying Chinese for the oppression, persecution and genocide

murders in East Turkistan by participating in an event held in Ankara about East Turkistan, it was seen that the Occupying Chinese Embassy in Ankara once again took action.

In order to cover up these crimes against humanity, the invading Chinese administration has recruited from Turkey, which has never seen China's Uyghur oppression and even accused the oppressed Uyghurs, and saw the CCP's persecution partnership humiliation appropriate for them, in order to cover up these crimes against humanity. this time it was reported that some supporters

and Chinese journalists from Turkey took to East Turkestan between July 09-13 and made them visit the Chinese theater stages prepared in advance in the capital cities of Urumqi, Kashgar and Turfan.

HE DESCRIBED HIS IMPRESSIONS THROUGH THE EYES OF CHINA

According to the news of China International Radio (CIR-TURK), which conducts Chinese propaganda in Turkey under the Central Committee of the CCP Party, Chinese Turkish journalists who were taken to East Turkistan as a guest of China, after watching the Chinese puppet theater shown to them, told Chinese radio their impressions through the eyes of genocidal China as follows:

Gökhun Göçmen: China Media Group Istanbul Representative : He took lots of photos while he was in East Turkistan (in Xinjiang according to the invading

China and Chinese). When he visited an e-commerce company in Turfan, he also participated in the live broadcast sale of the company. The immigrant said that Xinjiang is a remarkable place. Pointing out that Xinjiang has been a region where different ethnic groups have lived collectively since history, Immigrant said that Xinjiang has become more dynamic with the stability of Xinjiang society, the development of its economy and the preservation of cultural diversity. After returning to Turkey, the migrant stated that he would tell the world about a real Xinjiang with videos and photos he took himself.

Hasan Bögün Author and commentator : He noted that it has been his request for a long time to get in close contact with the different ethnic groups of the region in order to get real information about the region. Pointing out that the visit was

perfect, Bögün said that he saw different ethnic groups living together in harmony. Bögün expressed his hope that more foreign researchers and academics would come to Xinjiang and witness the changes taking place in this land. He noted that all parties contributed to the improvement in the living conditions of the people of Xinjiang .

Kamil Erdoğan- Member of the Delegation Journalist : He stated that China's human rights case has developed successfully and visible progress has been made. Erdoğan stated that the news of Western media outlets will not affect his feelings for Xinjiang . Erdoğan, a senior Turkish journalist, had visited Xinjiang years ago. Reminding that there are changes from earth to sky in Xinjiang , Erdoğan said, “ Xinjiang when I first arrived in , there weren't that many cars on the streets and

flights were limited. The speed of the train was also slow. Today, while skyscrapers are seen a lot here, transportation conditions have been made very easy. It takes only 50 minutes to reach Turfan from Urumqi by high-speed train. Erdoğan emphasized that Western media organizations are trying to invent something for China's human rights issue, but these are not real. Erdoğan said, “ If you come to Xinjiang , you will see the real situations here, you will see that the people of Xinjiang live happily and that a beautiful future awaits Xinjiang .

Mehmet Ali Güller- Cumhuriyet newspaper: He reminded that Xinjiang has become one of the fastest developing regions of the country with the support of the Chinese government. Noting that Xinjiang is the place where many international fairs and conferences

have been organized in recent years, and international cooperation has been carried out here, Güller said that these prove that Xinjiang is an important point of the modern Silk Road and has great development potential.

EAST TURKESTAN HAS BEEN UNDER CHINESE CAPTIVITY FOR 74 YEARS

Mr. Hamit GÖKTÜRK, the president of the Center for Uyghur Studies, Reminds these So-called journalists of the following Issues and Called on:

1. The Chinese Journalists mentioned above whose names and “Impressions they wrote” have never had contact with a normal and streetwise Uyghur living in East Turkistan during the Chinese occupation. The Chinese Puppet Hitay Mullah, whom the Chinese occupation administration had previously set up with blackmail and threats by pulling his ears, was interviewed by the enemy of religion Abdurrapik and similar communist Imams. For this reason, they have never seen China’s oppression, persecution and genocidal murders, which have become drunken in the world, have been exposed, disgraced. Nor did they mention any of this in their impressions.

2. East Turkistan is a Turkish homeland that was forcibly occupied by Communist China in 1949. China is an occupying foreign power in this country. China has been exploiting this country for 74 years, extorting rich underground and above-ground resources and transporting them to China by force. It condemns the real

owners of this country to unemployment, poverty and hunger. Using these rich resources to make the country Chinese, it places ethnic Han Chinese in the region with the aim of demographic assimilation.

3. The CCP Occupation administration has isolated the region from the world with the “War on Extremism and Terrorism” campaign since 2017. Taking inspiration and example from fascist Hitler, it keeps Decently and unlawfully imprisoned between 1-3 million Uyghur Kazakhs and other Turkish peoples in Chinese- Nazi/ Concentration Camps throughout the country. Inhumane cruelty and torture are applied to the detainees in these concentration camps, Uyghur women are forcibly sterilized for the purpose of genocide, and young women are systematically harassed.

4. MHP Chairman Dr.Devlet Bahceli, MHP.Hatay Deputy Lutfi Kaşıkçı AK Party Deputy Chairman and Erzurum Deputy Prof. Dr.Kamil Aydın, AK Party Bursa Deputy Osman Mesten, Osmaniye Deputy Derya Yanık. The Chairman of the future party Assoc.Dr.Mr. Selçuk Özdağ, GOOD Party Deputies Bilal Bilici and Mr. Selçuk Türkoğlu, especially many Deputies and our politicians deny your words that you claim to have these impressions of East Turkistan with their statements.

5. These grave human rights violations of the CCP Occupation administration in East Turkistan were reported by the UN on August 31, 2022.It has been described as a “Crime against Humanity and Genocide” in the Supreme Council of

Human Rights.

6. Almost every week, China's systematic genocidal killings of the Turks of East Turkistan are brought up and discussed on all international platforms, especially the UN, and calls are made for the Chinese government to put an end to these inhumane killings.

7. East Turkistanis living in 4 continents and 28 countries of the world, especially the 30 thousand East Turkistanis living in Turkey, have not been able to communicate with their families and relatives in East Turkistan in any way since 2017.

8. since 2017, all kinds of communication, especially Internet and telephone connection, especially mutual travel with East Turkistan, have been banned. When families have contact with relatives abroad, they are detained as criminals.

9. Uyghur Turks are able to receive the news of the death of family and relatives who have died in their country indirectly months later and perform funeral prayers.

10. The heartbreaking and hateful and cursed explanations of the survivors of the concentration camps that China established by taking the example and inspiration of Hitler's Fascism in East Turkistan have caused great repercussions in Turkey and all over the world, and the explanations are available on youtube.

11. It is never possible to write down all of the oppression, cruelty and crimes against humanity and genocidal murders committed by the occupying China against the Turks of East Turkistan here.

12. China took you to East Turkistan to cover all your expenses and made you watch the Chinese Theater prepared in

advance. You have written about the places shown by the Chinese Occupation administration and the impressions of the CCP officials you have spoken to, as well as China's directives and the way they want. You have never met/been interviewed by a Uyghur on the street. All of what you wrote about "Impression" in the CCP Publication above are fake and Chinese lies and are never convincing.

13. If you want to do real journalism instead of Chinese-style journalism, 30 thousand East Turkistanis, victims of the CCP, who fled from China's crimes against humanity and Genocide murders in East Turkistan and took refuge in our country, live in Istanbul. Meet with them face to

face as well. Listen to them too. Compare what you have been shown in China with what these Chinese oppressed Uyghurs have told you, and write down the facts by analyzing your thoughts correctly. Then you will have really become a journalist and done real Journalism.

14. If you believe in the honor of being human and want to listen to the voice of your conscience and BECOME A JOURNALIST-WRITER by THE RULES OF TRUE AND IMPARTIAL JOURNALISM, if you want to meet with Uyghur Turks who came to our country fleeing Chinese persecution and live in Istanbul, we are ready to help.

FORCING A UYGHUR GIRL TO DRINK ALCOHOL, MAKING HER DRUNK, AND MAKING FUN OF HER

The Chinese, who are staying in a Uyghur house, under the pretext of the so-called "kinship project", forced a Uyghur girl to drink alcohol in an amount that made her very drunk. Then they laughed at her, mocked her, photographed her, and posted it on Chinese social media.

The Chinese authorities are sending Communist Chinese to the homes of the Uyghurs to stay and sleep in their homes for spying and Sinization under the name of the "Kinship Project".

The Uyghur homeowners are forced to treat the Chinese with great hospitality,

provide a large feast, and they are also forced to serve them pork and wine, and even eat it!!!

The Chinese monitor the Uyghurs, and if any Uyghur refuse or show opposition

to any of their orders, the Chinese authorities will punish those Uyghurs with the most brutal methods, and detain them in Chinese prisons and detention centers, and even sentence them to long years in prison, torture to death and execution.

Video footage circulated on Chinese social media platforms “duyin” shows Chinese instructors in military uniforms forcing Uyghur children into military training.

Photos of an event organized by the so-called “Xinjiang war song tourism agency” in the central city of Urumqi under the name of the so-called “Xinjiang summer camp for children in uniform” show that the Chinese regime is forcing Uyghur children of primary school age by wearing military uniforms. Professionally prepared Content shows that China is forcing Uyghur children to undergo strict military training that is not suitable for their age, and the voices of children screaming and crying can be heard in each video.

The Chinese instructors trained ruthlessly. Unfortunately, the girls are among the children separated from their families. Uyghur children are trained by Chinese instructors in the military camp through military exercises. In some photos that show children between the ages of 6 and 11, the children, who say they miss their parents, their families and the home cooking, can't stand the harsh conditions at camp and cry loudly.

In one of the videos, an unfortunate 8-year-old Uyghur girl was ordered by the Chinese commander in a rude manner

(spit in her face) and forced the girl to stand upright and say something loudly.

Little Girl shouted loudly, “my name is Sabrah, no matter what danger I face in the future, I risk all my strength and persevere until the end. Please, I beg you to let me go.” heartbreaking.

The spread of child torture from the official account

The photos posted under the username “Xinjiang War Song Tourism Agency” on the Chinese social media platform “Douyin” under the name “Children in Xinjiang Unified Summer Camp” caused great repercussions after Ms. Zumret Daoud published them on her personal account on social media.

Observers say that China is trying to brainwash young children with the lie of “activity and child development”, that innocent children are too tired and exhausted, they are not old enough to deal with such violence, severe beatings, fights, kicks, slaps and teases, and that those children are in fact Uyghurs innocents, stating that the Chinese authorities was trying to train them to be communist guards.

CHINA TRIES TO DECEIVE KUWAITI JOURNALISTS

The Chinese regime has imprisoned millions of East Turkistanis in concentration camps and prisons for the last 7 years. By sending young people into exile to Chinese provinces and other regions to work in Chinese factories by force, and by bringing Chinese settlers to their places, it has seriously reduced the Uyghur population. The point is that by mobilizing diplomats and members of the press from foreign countries, especially from the Muslim world, it is trying to create an image that everything in the region is “living in happiness.

“THE MORE I UNDERSTAND, THE MORE I LOVE”

The so-called “Xinjiang television” network, one of the Chinese propaganda channels in Xinjiang, reported that a delegation of ten members of Kuwaiti journalists from July 15 to 19 visited the so-called “anti-terrorism” Museum in the city of Urumqi,

the ancient streets of the ancient city of Kashgar and the fictional pre-prepared tourist sites in the Pisafat area, Chinese textile enterprises, the so-called “school”, educational complexes one after another, with their misleading content. While trying to justify the systematic genocide of the Muslim people, the Chinese regime tried to cover up the persecution.

According to the information, during the four days trip, Kuwaiti journalists encountered intense propaganda of Xinjiang yahshi yir, Chinese officials constantly told the group members that “the more you understand Xinjiang, the more you like it, and our goal is to present the real Xinjiang to the world and spread it widely,” revealing its main goal.

IT ALMOST TURNED INTO A TOURIST PARADISE

Observers say that while China has recently applied double standards on

the East Turkistan issue, inviting the international community to visit East Turkistan through false propaganda, it has imposed various conditions and ultimately did not allow human rights institutions and countries requesting to visit the region and observe, which in fact is nothing more than changing the international community, and that the international community was responsible for the systematic persecution of the 35 million Muslim population. Moreover, while Muslim women are sterilized with various chemicals in concentration camps, used as rats in experiments, while people abroad are forced to work in Chinese factories in the place of slaves under the pretext of

“fighting poverty”, the Uyghur Turks are exiled from their homelands to collective housing, the fears of the international community about East Turkistan have increased, that it is unacceptable for the Chinese occupation government, The actions of China’s false propaganda will not be limited to this, and it was trying to create the impression that there was no persecution in the region by mobilizing embassies and journalists recruited from Pakistan, Turkey, Japan, Egypt, Iran, etc., And that they have invested heavily in this business, it means that the fake and eye-catching Propaganda Games in China will continue unabated.

The Falcon Shield-2023 joint training exercise between the Chinese and United Arab Emirates air forces will be held in East Turkistan next month, according to

the annual plan and the agreement of the two countries.

China’s Defense Ministry announced

that China and the United Arab Emirates (UAE) will hold joint air force training exercises in August in East Turkistan, a so-called “Xinjiang” region inhabited by Uyghur Turks.

While the fact that the exercise will be held in East Turkistan is noteworthy, it is a matter of curiosity whether the US weapons in the UAE’s equipment will cause Washington to comment that “it creates weaknesses”.

This will be the first joint training between both air forces aimed at “deepening the pragmatic exchange and cooperation and developing mutual understanding and so-called trust” between the two militaries.

The statement issued by the Presidency did not specify the size of the UAE soldiers who will participate in the training, the duration and scope of the exercise.

EXERCISES WITH THE U.S.

The UAE, an ally of the United States, has conducted numerous military exercises with U.S. forces, including the annual Iron

Corps exercise, the most recent of which took place in May.

Moreover, the UAE military is equipped with various American weapons and equipment, such as the THAAD missile defense system and AH-64 Apache attack helicopters.

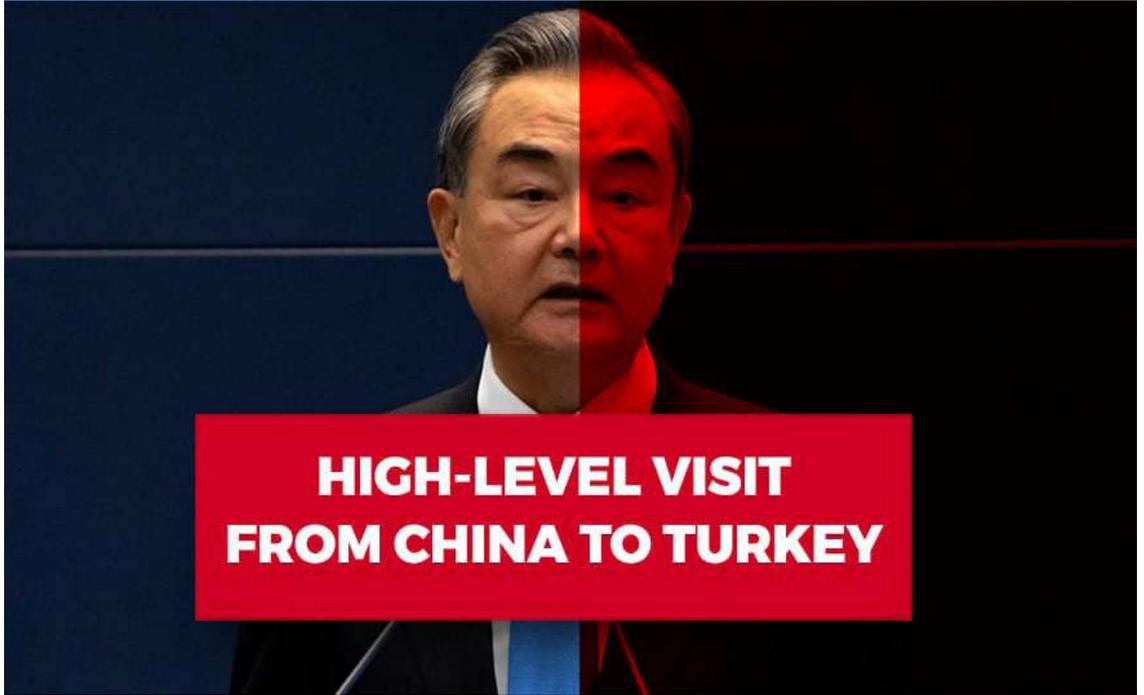

CHINA AND UAE’S DEFENCE RELATIONS

On the other hand, the UAE’s primary weapons manufactured in China include unmanned combat aerial vehicles such as the Wing Loong 1 and Wing Loong 2, which are indirectly manufactured by Chengdu Aircraft Industry Group, a company owned by the Chinese government.

In 2017, the UAE also purchased Blue Arrow 7 anti-tank missiles from China for use in its Wing Loong 2 fleet.

During the IDEX 2023 exhibition, where defense weapons were on display, the United Arab Emirates also signed agreements to purchase several advanced L-15 trainer aircraft from China.

It was announced that Wang Yi, China's top diplomat and director of the Office of the Foreign Relations Committee of the Central Committee of the Communist Party of China, will visit Turkey on July 26.

Chinese Foreign Ministry spokesman Mao Ning announced today that Wang Yi, a member of the Political Bureau of the ruling Communist Party of China Central Committee (Politburo) and China's highest-ranking diplomat, director of the Foreign Relations Committee office of the CPC Central Committee, will visit Turkey at the invitation of the Turkish government.

HE WILL STOP AT TURKEY ON HIS WAY TO AFRICA

The statement included the following statements: "Wang Yi, Minister of the South African presidency Khumbudzo

ntshavini and the 13th president of the Republic of Nigeria, Kenya, South Africa and Turkey will be held in Johannesburg on July 24-25 at the invitation of governments. He will attend the meeting of BRICS high-level representatives for security affairs and will visit Nigeria, Kenya, South Africa and Turkey before and after the meeting."

VISIT ON JULY 26

According to information obtained from the Turkish Embassy in Beijing, Wang Yi will pay a one-day visit to Turkey on July 26.

Wang Yi, the director of the Office of the Central Foreign Affairs Committee of the Communist Party of China, ranks higher than Chinese Foreign Minister Chen Gang in the Chinese political system. Wang Yi visited Turkey in 2021 as Chinese Foreign

Minister.

CALL FOR A PROTEST DEMONSTRATION

The International Association of East Turkistan NGOs, despite the Chinese diplomat's visit to Turkey, called on the public to fully understand the Elishko massacre on July 9-28. The International

Association of East Turkistan NGOs called on all East Turkistanis volunteers to the Chinese consulate to protest against the visit, which will take place on the anniversary, and the genocide committed by Chinese brutality in the most brutal way.

The delegate of the genocidal Chinese regime is coming to Turkey again.
